

# | Note cubes.

## Look, write, rest!

Something more than just a set of pages.  
Due the possibility of printing an advertisement  
on each side of the cube, the presented  
information becomes more visible. At the same  
time, note cubes are highly practical – always  
close at hand whenever an unexpected necessity  
to write something down occurs.

In brief – a note cube is an office must have!

We offer standard or adhesive note cubes.
